

寶安商會王少清中學定期通訊/通告,2002年創刊,逢每月10、20及30日派發。

# 校長話:不知他是誰,只想說聲「謝謝」!

上任校長一職兩個多月,工作十分繁重,爲迅速了解校情,盡早訂立學校發展路向,每天除了批閱大量文件,接見家長、老師和同學外,還要參加與學校有關的不同活動,與區內友校和社區人士交流聯繫,時常工作至傍晚才下班。

有一天,晚上八時許,所有同事都下班了,大閘亦已關上,我只能從門邊的小閘離開。開鎖後,我花了十多分鐘仍未能順利推開閘門。徬徨無助之際,門外一位年青人路過,看見我不知所措,便主動向我問個究竟。原來鐵閘外尚有一道橫門,他替我拉開橫門,門便開了。我連忙向他道謝,他彬彬有禮地說:「不用客氣,只是舉手之勞,校長!」我正想追問他的名字,他已轉身而去。我步出閘門,亦只能目送他遠去的背影。

這一椿小事,對新任校長的我,別具意義。他的表現,令我深深體會到本校學生樂於助人、施恩不望報的高尚情操。曾有許多校董、家長和老師跟我說,王少清中學學生不單成績優異、課外活動表現出色,更難得的是他們品格純良,謙遜有禮。這椿小事,印證此言非虛。

在現今崇尙功利主義的社會,同學們能擁有這種樂於助人的態度實是非常難得。喜見同學有這種美德,我作為王少清中學校長,也感到十分驕傲自豪。我自當竭盡所能,帶領同學把這種優良的校風延續下去。

## 老師的話: 從閱讀說起

在圖書館有一本書:《生命教育——倫理與科學》,作者是台灣一學者鈕則誠,書中有以下一段:

隨著醫藥科技的進步,現今避孕的風險已大幅降低,而其副作用也減到最小。但這只代表技術的進步, 女性主義所關心的則是心智的成熟。「男大當婚,女大當嫁,不孝有三,無後為大」係傳統民族文化 對社會成員提出的指導綱領,結婚生子成為踏入社會的不二法門。如今人們已走入後現代,選擇的項 目得以從一項增為四項:結婚生子、非婚生子、頂客一族\*、單身貴族。

性自由(sexual freedom)在可靠的避孕和方便的墮胎推波助瀾下,使男女往還不必然要有信諾(commitment)關係,同性戀更得以化暗為明(Hunter College Women's Studies Collective, 1995: 316-319)。但是我們不禁要問:年輕人真的具有成熟的心智,能夠在多元選項中作出明智的抉擇嗎?

──〈愛的教育──避孕〉(頁 131)

\* 頂客一族:在台灣用以形容無經濟負擔,無子女顧慮的夫婦。他們本可優悠自在地生活,但在離婚視作等閒,又充滿各式誘惑的社會,婚姻容易破裂,於是夫妻各自防範,互存私密,互留一手,爲將來離婚作打算。 http://tw.myblog.yahoo.com/q1003879-Tasso/article?mid=22

我則看到,不只是年輕人,成年人都可以過得一塌糊塗,混淆是非,讓我們一起思考怎樣才是成熟的心智? 面對抉擇,又怎樣才是明智呢?下期待續。

## 微文比赛奪獎 同學佳作共賞

3D 班諸慧珊同學參加了由新界區校長會舉辦

「慶祝中華人民共和國成立61周年學生徵文比賽」,並獲得優異獎。

不知不覺,祖國成立已有六十一年了。經過多年努力,我國已躋身國際,奠定重要地位。

近年,國家盛事連連,喜事多不勝數。

二零零八年的北京奧林匹克運動會,是五百年難得一遇的好機會。自北京政府在二零零一年獲得零八年奧運的主辦權,政府便興建大型體育館——鳥巢和水立方,及其他建設,迎接奧運。又積極改善各種環境問題,如空氣污染及街道衛生、清潔,足證北京政府要成功舉辦大型運動會的決心。那次盛會,讓中國人都興奮起來,感到無比光榮。盛會期間,中國展示實力,奪得多項冠軍,無數獎牌,成爲獲得金牌最多的國家,足證我們也是體育強國之一。而整個北京奧運,也獲得國際讚賞,是一次成功的表現。

航天科技的發展也有目共睹。二零零三年,神舟五號升空,令中國成爲世界上第三個獨立進行載人航 天工程的國家。「神五」的成功,爲國家航天事業奠下基礎。二零零八年,第二次載人航天工程亦成功了。 那次,「神七」載了兩名太空人,更成功在飛船外活動,使中國航天事業攀上另一個高峰,令中國人感到鼓 舞。

二零一零年,上海舉行世界博覽會,有一百四十二個國家及國際組織參加,共有一百五十四個展館, 各具特色。其中以中國館、丹麥館、韓國館等最吸引,遊客絡繹不絕。

經過多年努力,中國成就終獲肯定。每次舉辦盛會,也得到讚賞。國家發展一日千里,令人鼓舞。

近年國內常要面對自然災害的威脅。二零零八年,四川大地震奪去無數生命,很多人無家可歸,但這次嚴重災害,又令大家感到人間有情,明白「一方有難,八方支持」的道理。今年,甘肅舟曲縣發生泥石流,中國人民亦同樣展現關懷。

作爲國家一分子,我替國家繁榮發展感到高興及驕傲,並相信祖國的將來可更繁盛,多年的努力是沒 有白費的。

#### Students reported on their visit to HKU

All F.5 students went to the HKU Information Day on 30th Oct. They found the visit useful and meaningful. Some of them would like to share their experiences with you.

Now I know the answer: I have to work tremendously hard to get a university place!

After visiting HKU, I think it will be extremely difficult for me. Accounting and Finance require 5\*\* in 2 subjects and Level 4 or above in all the other subjects! Many other programmes in HKU require Level 4 in all subjects!

The visit was fruitful. I realized how big the campus was and how complicated the curriculum of different programmes were. I learnt about the requirements of BBA and Social Sciences. I found lots of exchange opportunities. I believe I have fallen in love with the university.

5A Yip Tai Yin

I thought the visit was much more useful than surfing the Internet on my own. Moreover, after I attended the talks and exhibitions at the English, History and Geography Departments, I got a better understanding of their contents and requirements. Now, I have to set my goals and work hard on them.

5B Leung Li Jia

I visited the Faculty of Architecture. The models there showed me that the students had a strong sense of creativity. Then I attended the Admission Talk of the Department of Earth Science. It aroused my curiosity to know more about our planet - the Earth. The visit was interesting.

5B Ng Mei Tai

Studying in HKU is the dream of many students. My favourite programme is Music. I found that the Music Department requires not only good music results but also English, Chinese and Mathematics. In order to realise my dream, I must work much harder than before!

5C Lin Hei Tung

I found the programmes in the School of Modern Languages and Cultures the most attractive because I can study French, German, Japanese and Korean. Learning different languages is my dream as I enjoy meeting people and making friends with people from different cultures. I must work hard now!

I think university life is interesting and meaningful. However, I feel a bit confused after I have collected a lot of information. I need more time to read and think. As the entrance requirements are very high, I know I have to catch up! I hope I can study my favourite programme!

Although I study Physics and Chemistry, I am interested in BBA. Out of all the programmes, I like Economics the most. It has become my target and I will try my best to attain it. After the visit, I have become inspired to study hard. HKU, wait for me.

5D Ng Man Fung

This was my first time to visit HKU. The buildings and the Lily Pond are beautiful. The students were nice. They answered my questions patiently and politely.

I attended the talks of the Department of BBA and the Department of Social Sciences. I found that BBA (Business Design and Innovation) is a new programme. I am very interested in it.

After visiting HKU, I have set up my study plan. I hope that I can get a good result in the HKDSE in two years.

5D Lam Pik Wing

I thought the Faculty of Arts gave me an attractive learning atmosphere with its classical design.

When I visited there, I was impressed by the profound knowledge of the History professor. However, what benefited me most was the talk by another professor. She told me that learning at university meant we had to learn by ourselves. No one would tell us what was exactly right or wrong. I thought it was meaningful. This is the kind of learning attitude we should have when we are university students.

5E Lam Heung Yi

The games of the Department of Psychology were fun and exciting. At that moment, my determination to study Psychology was greatly strengthened. Moreover, the human specimens from anatomy were incredible and amazing. They were all genuine. I really enjoyed this visit and I will put HKU as my first choice.

5E Mak Chun Ying

Before this trip, I was so excited to visit one of the top universities. Really, there were no disappointments.

The most impressive event was the Inter-hall competition held in the afternoon. The students demonstrated what 'solidarity' was. They were having a fantastic university life!

In other talks and exhibitions, I asked many questions. I found all students answered me confidently. They even shared their learning experiences with me.

After the visit, I expect to become a confident university student. I hope I can be a confident graduate on the last day of my university life.

5E Cheung Wing Sze

Through the visit, I learned more about the culture of university and the programmes I am interested in. Moreover, I had the chance to visit some mysterious areas like the halls for the university students and the classrooms which were really different from ours. The visit encouraged me to work harder to fulfil my dream.

5F Tsang Hoi Kee

On my first stop, I went to the Physics Club. There was a super telescope with which I could take a glimpse of space. I felt very interested in it. I also attended the talk about Pure Mathematics. I collected a lot of useful information from the professor. I thought this visit was meaningful as it helped me to plan for my future.
