

1A Kasey Tsang

From: Mr Lo

My name is Kasey Tsang. I am 12 years old now. My hobbies are reading books and studying. I like to read and study because I can learn different knowledge from books.

I have a big family and my family members are grandparents, parents, my elder brother, my aunty and my uncle. They love me very much and I love them too. My grandparents live in the building next to ours. My aunty and uncle also live very close to us. We can meet each other almost everyday. My elder brother is nineteen years old. He is studying in the USA. Although we seldom talk with each other but our relationship is very good. He likes drawing very much but he also loves playing computer games. My mum and dad are in business and they are working in the same company. They like watching TV programs.

I have started in a new school this year and my school name is Po On Commercial Association Wong Siu Ching Secondary school. I am very happy to study in this school and I love my teachers and my classmates.
