Po On Commercial Association
Wong Siu Ching Secondary School

School Report

2025 – 2026

(1) Our School

Our Mission

- Our mission is to educate our students to adopt a respectful and humble disposition in life and pursue endeavours with perseverance and earnestness, to become self-initiated learners, responsible citizens and tomorrow's leaders with integrity. Our school motto is, "Reverence (敬), Humility (遜), Perseverance (時) and Earnestness (敏)". On this basis, we educate our students to understand and accept themselves and others, to live virtuously, to have a life-long pursuit of knowledge for their personal growth and to possess social awareness and a sense of conscientiousness for the common good.

School Sponsoring Body

- Po On Commercial Association was founded in 1914. With a heart set on education, it established in Hong Kong the Po On Commercial Association Wong Siu Ching Secondary School and the Po On Commercial Association Wan Ho Kan Primary School in 1979 and 1997 respectively. The Association has also sponsored various primary school renovation projects through Sowers Action in Hunan and Yunnan with a keen concern for alleviating poverty and promoting educational development in China.

Incorporated Management Committee

- The Incorporated Management Committee (IMC) replaced the School Management Committee, the former governing body on 1 December 2011 to allow different stakeholders to be represented in school management and policy-making. Our IMC consists of 15 registered school managers, including 8 Sponsoring Body Managers, the Principal, 2 Teacher Managers, 2 Parent Managers, 1 Alumni Manager and 1 Independent Manager. The IMC exercises supervision, offers guidance to the school and oversees the school's daily operations.

Medium of Instruction

- Starting from Form One in 2010/11, English has become the medium of instruction in teaching and examination for the following subjects: English Language, Mathematics, Science, Physics, Chemistry, Biology, History, Geography, Computer & Information Technology, Economics and Business, Accounting & Financial Studies. Chinese remains the medium of instruction for Chinese Language, Citizenship & Social Development, Citizenship, Economics & Society, Life & Society, Chinese History, Putonghua, Visual Arts, Physical Education, Music, and Design & Technology.

School Facilities

- Our school is an aided, whole-day co-educational secondary school established in 1979. With a campus site area of over 6,000 m^2, we are one of the largest schools in Tsuen Wan District, providing spacious areas for student activities.
- The school has modern facilities and equipment, including 24 classrooms, 4 science laboratories, an outdoor playground, a covered playground, an assembly hall, an education research room, a library, a multi-media learning centre, a Chinese room, an English room, a Mathematics room, a STEAM room, a Geography room, a Design and Technology room, a History & self-directed learning room, a Visual art room, a Music room, 2 computer rooms and a counselling centre.

- Each classroom is installed with a smart board, a computer, a visualizer and a projection system. The school hall, all classrooms and special rooms are air-conditioned.
- The Multi-purpose Area, on the ground floor of the new extension of the main building, has an estimated area of over 185 m^2. It has been renovated recently, equipped with air-conditioners, audio-visual facilities and folding glass panels for enclosure. The area serves as a venue for a variety of activities, such as small group assemblies, speech and singing performances, film shows, tests and examinations, and even private study in the evening, with a capacity of up to 140 students.
- The School History Room, completed in 2019, displays a wide collection of memorabilia, from founding documents to photographs that illustrate the collective memories of student life over the past 40 years. Students and visitors are welcome to leave a memorable note on the guestbook after the tour to pass on the spirit of WSC.

Auxiliary Bodies

- Our Alumni Association, Student Association and Parent-Teacher Association were set up in 1994, 1995 and 1997 respectively. These three Associations are now operating smoothly according to their respective constitutions in enhancing the development of the school.

Class Structure

- We have 24 classes as follows:
  Form 1 – 6: with 4 classes at each level

School Days

- Students attend school from Monday to Friday following a 7-day cycle. A test and an examination are scheduled for both the first and the second terms.

Qualification of Teachers

- We have 57 teachers in this school year:
  - 88% of them were formally trained in teaching;
  - 100% of them possess a Bachelor's degree;
  - 49% of them hold a Master's degree or above;
  - 70% of them have received special education training.
- Most of the lessons are taught by subject-trained teachers.
- Teachers' years of experience

	0 – 4 years	5 – 9 years	10 years or above
Percentage of teachers	33%	14%	53%

(2) Achievements and Reflection on Major Concerns; Feedback and Follow-up

Major Concern 1 : To nurture students to be self-directed learners

Achievements

Based on the quantitative data and departmental evaluations for the 2025-2026 school year, significant progress was made in nurturing students as self-directed learners. The school's emphasis on creating a collaborative learning atmosphere proved highly effective, with the "Learning Atmosphere (Cooperation)" Q-score reaching an impressive 116 across all forms. This positive environment, where students feel comfortable asking questions and working with peers, laid a strong foundation for self-directed learning.

Key achievements include:

- Metacognitive Growth: Students demonstrated strong metacognitive growth, with 57.1% reporting that they regularly reflect on their learning based on feedback. This was supported by a high Q-score of 116 for "Learning (Self-monitoring)" and "Learning (Self-planning)," indicating that a majority of students can effectively reflect on and improve their learning.

- Reading and Thinking Skills: Students showed excellent mastery of reading strategies (Q-score 116) and a high aptitude for critical thinking (Q-score 116). Various departments, including Biology and the library, observed that implementing the Think-Pair-Share (TPS) strategy improved students' understanding of complex questions.

- Peer Collaboration: The goal of promoting collaborative learning was successfully met. Over 65% of students agreed that peer collaboration makes their learning more effective, and departments noted active participation in group discussions and project-based learning.

Reflection

Despite the achievements, several challenges remain:

- Fear of Failure and Confidence: A significant barrier to self-directed learning is the students' pervasive "fear of failure," indicated by a low Q-score of 85. This fear has a direct impact on their confidence, with only 45.2% of students reporting confidence in their learning. Departments like Biology and Mathematics noted that while students possess high-order thinking skills, they are often hesitant to answer questions in class for fear of being wrong.

- Active Questioning and Engagement: While the environment is conducive to asking questions, departmental observations from subjects like Putonghua suggest that students are not yet actively asking questions in lessons. Senior form students, in particular, show reluctance.

- Time Management and External Pressures: Students, especially in senior forms, struggle with time management due to heavy academic workloads and after- school tutoring. The PE department reported a decline in sports team participation, with over half of the junior form team members spending more than eight hours a week on tutoring. This lack of time also affects participation in activities like study circles, as noted by the Biology department.

Feedback and Follow-up

To build on the progress from the 2025-2026 school year, the following follow-up actions are recommended:

- Address Fear of Failure: Continue to promote a growth mindset with a specific focus on helping students embrace failure as a learning opportunity. This will be crucial for building the confidence needed for students to take ownership of their learning.

- Enhance Time Management Support: Introduce more structured guidance on time management to help students balance their academic and non-academic pursuits. This will empower them to use their time more effectively and reduce anxiety.

- Refine Implementation of Collaborative Learning: While TPS has been effective, further refinement is needed to ensure all students are actively engaged. Teachers should continue to provide structured prompts and guidance to facilitate deeper peer evaluation and discussion.

Major Concern 2 : To empower students to embrace challenges and develop belief in themselves

Achievements

Students have more room to explore their potential and tackle challenges:

- In 2025–26, students reported having more room to explore their potential and tackle challenges, with APASO data showing slight progress in reducing tension between academic and non-academic pursuits. The Student Affairs Committee introduced time-management frameworks like the "Urgent and Important" matrix into the F.1 school-based form teacher curriculum, helping students manage their time more effectively. In response to deadline-related anxiety from complex projects, many subject departments plan to teach project-management skills and review timelines to ensure a better balance for students.
- Additionally, departments successfully substituted or transformed ineffective assessments with more engaging and meaningful methods. For instance, the Chinese Language Department introduced "Composition Revision" to help students improve their writing based on feedback and added "challenging questions" for dictation. The BAFS Department implemented an Oral Response Assessment for F.4 students, shifting the focus from rote memorization to deeper understanding and helping to alleviate public-speaking anxiety.

Regarding the enhancement of students' growth mindset, progress has been satisfactory:

- The school's sustained efforts have encouraged students to embrace challenges and recognize effort as key to success. This is reflected in the "Learning Attitude (Perseverance)" Q-score of 113 from the APASO 2025–26 survey, indicating a persistent learning attitude. The Growth Mindset Scale (newly incorporated into Stakeholder Survey) showed students scoring 4.38 out of 6, with many greeing with the statement, "through hard work and study, I can significantly improve my ability" (4.6/6).
- Reflection was strongly encouraged across all units, with many adopting the 4Fs framework for a more systematic approach in activities ranging from leadership training to the Wellbeing School Carnival. Departments like Visual Arts provided flexible creative spaces, allowing students to express themselves and fostering a sense of ownership by letting them choose their own themes and media. Various departments also moved away from single summative assessments by including formative elements like peer reviews. Efforts to boost self-confidence have also been fruitful; for example, 78% of F.6 students who participated in "Mock Interviews" organized by the Career and Life Planning Unit reported increased confidence.

Students have shown positive life values and attitudes:

- An increasing number of students demonstrated positive life values and attitudes in both academic and non-academic areas. According to APASO 2025–26, strong indicators include consistently high Q-scores above 110: "Honesty (Act of Honesty)" (114), "Morality (Importance)" (115), and "National Identity (Achievements)" (116 for both junior and senior forms). These scores suggest that a high proportion of students demonstrate positive values in character development, civic consciousness and national identity. The MCNE Unit promoted national education as well as moral and civic education activities, helping students understand national laws and national security while fostering law-abiding awareness and an international perspective.

Reflection

- After staff development sessions and illustrations during staff meetings, most staff members recognized what growth mindset means and attempted to incorporate growth mindset elements into both academic and non-academic areas. Reflections have also become more structured and frequent than before, with a stronger focus on "findings" and "future" to facilitate students' growth mindset. This partly explains why the APASO 2025–26 "Perseverance" Q-score is satisfactory.
- However, another APASO statistic reveals that the "Affect (No Fear of Failure)" Q-score is only 93, and even 85 for F.1, indicating that many students still fear failure. This remains a significant barrier to the development of comprehensive self-confidence and a growth mindset. In addition to introducing the concept of growth mindset to students this year, we should place greater emphasis next year on developing the right attitude towards challenges and failures, helping students understand failure as part of the process of achieving success.

Feedback and Follow-up

- Next year, as the second year of implementation of the School Development Plan, we will continue to deepen the promotion of a growth mindset.
- Students should be able to utilize their optimized time to engage in meaningful activities and tackle challenges after being taught time-management skills. Students should also proactively demonstrate a growth mindset and embrace failure. The development of a growth mindset should continue to be strengthened through structured reflection, opportunities to face challenges, and support for students in viewing setbacks as part of the learning process.
- In terms of values education, students should be able to internalize priority values to act as self-directed learners who positively influence others, and we should explore related values to support students in accepting their own and others' failures, like "acceptance".

(3) Student Performance

Over the past academic year, our students demonstrated remarkable academic achievements, diverse talent development, and a proactive learning attitude, consistently achieving outstanding results in public examinations, university admissions, and various external competitions.

This year, 84.2% of graduates met the basic entrance requirements (332A2) for local four-year bachelor's degree programmes. Among UGC-funded bachelor's degree admissions, over half (52.9%) secured placements at the University of Hong Kong, the Chinese University of Hong Kong, and the Hong Kong University of Science and Technology. Students were admitted to highly competitive programmes, including Actuarial Science at HKU, Quantitative Finance at CUHK, Pharmacy at CUHK, and Radiography at PolyU.

In HKDSE 2026, the percentage of our students achieving Level 5 or above in the following subjects exceeded the percentage of all Hong Kong day school students: English Language, Chinese Language, Mathematics (Compulsory Part), Mathematics (Extended Part), Chinese History, Chinese Literature, Geography, History, Business, Accounting and Financial Studies, Biology, Chemistry, Information and Communication Technology, and Visual Arts.

Our students excelled in various external competitions across multiple domains:

- Outstanding Student Awards: Students were recognised as Top 10 Outstanding Students of the New Territories and Outstanding Students of the Tsuen Wan, Kwai Chung & Tsing Yi Districts. They were also recipients of the Sir Edward Youde Memorial Prizes for Senior Secondary School Students and received Excellent Service Awards in public welfare and social service evaluations.

- STEAM: Achievements include a Silver Award in the Hong Kong Science Fair (with the school receiving the Best Newcoming School Award). Our students also secured Teamwork Champion in the Australian VEX IQ Robotics Open. Students were honoured in various International Mathematical Olympiads, the Physics Olympiad and the International Chemistry Quiz.

- Language and Humanities: The English Drama Team received awards for Outstanding Script, Performer, and Cooperation in the Hong Kong School Drama Festival. Students secured Champion in the Boys' Cantonese Prose Solo and an Outstanding Grand Award in the PolyU Chinese History Thesis Competition. Other achievements include Best Debater and Best Interrogative Debater in the Sing Tao Inter-school Debating Competition.

- Uniformed Groups and Community Service: The St. John Ambulance Cadet Division achieved Overall Second Runner-up in the Justice Cup and Champion in the Marching Competition, while the Nursing Cadet Division earned Overall Second Runner-up in the Caution Cup. The Girl Guides received the Outstanding Unit Award, with students earning the prestigious 'Outstanding Girl Guide' award, Chief Commissioner's Guide Award, and Lady Jane's Guide Award.

- Music: The Choir won Champion and the Gold Award in Church Music at the 78th Hong Kong Schools Music Festival. The Handbell & Handchime teams received Gold Awards in the Joint School Music Competition and the HK International Handbell Olympics.

- Sports: Students were recognised as N.T. Secondary Schools Outstanding Athletes (All Round). Teams won the Boys' Junior Grade Basketball Championship and secured 6th place in U15 Girls in the National Youth U-Series Beach Volleyball Championships.

- Visual Arts: Awards include Gold and Silver Prizes in the EDB Exhibition of Student Visual Arts Work, the Grand Prize in the "Study in Hong Kong" Cover Design Competition, and Champion/First Runner-up in various categories of the Kwai Tsing District Painting Competition.

Overall, our students demonstrated a positive and proactive learning attitude, strong expressive abilities, and commendable leadership skills.

The following is the award list in 2025-2026:

➢ 校外獎項 EXTERNAL AWARDS

傑出學生 Outstanding Students		
新界區傑出學生選舉 2025 The Outstanding Student Election of New Territories 2025	新界區十大傑出學生 Top 10 Outstanding Student of New Territories	4C WONG LOK YEUNG
荃葵青區傑出學生選舉 2025-26 Outstanding Students Award of Tsuen Wan, Kwai Chung & Tsing Yi Districts 25-26	傑出學生 Outstanding Student	5B CHAN TSZ CHING
荃葵青優秀學生選舉 2025-26 Tsuen Wan and Kwai Ching Outstanding Students Award 25-26	優異獎（高中組） Merit (Senior Secondary)	5C CHAN HIU CHING
	優異獎（初中組） Merit (Junior Secondary)	2A CHENG SHUN HEI 3A CHAN HIU HUEN
尤德爵士紀念基金高中學生獎 Sir Edward Youde Memorial Prizes for Senior Secondary School Student	獎學金獲獎者 Scholarship Recipient	6A LIN YIN HEI 6D CHEUNG O YEE
香港佛教聯合會永義獎學金 2025-26	獎學金獲獎者 Scholarship Recipient	6D HON CHEUK LONG
領展中學生獎學金 (全港首 30 位) Link Secondary Student Scholarship 2026 (Top 30 Students in HK)	獎學金獲獎者 Scholarship Recipient	3A CHAN HIU HUEN
